The book "The Mars Hypothesis" by Anthony of Boston presents the idea that the Federal Reserve can set interest rates based on the movements of the planet Mars. In this book, data going back to 1896 shows that as of April 2020, percentage-wise, the Dow Jones rose 857%. When Mars was within 30 degrees of the lunar node since 1896, the Dow rose 136%. When Mars was not within 30 degrees of the lunar node, the Dow rose 721%. Mars retrograde phases during the time Mars was within 30 degrees of the lunar node was not counted in that data as Mars being within 30 degrees of the lunar node. The purpose of the book is to not only hypothesize that the Federal Reserve can set interest rates based on the movements of the planet Mars, but to also demonstrate exactly how and at the same time, formulate a system that would enable the Federal Reserve to carry out its application in real time. Using the observation of the planet Mars, the book contains a strategy for controlling inflation, interest rate setting recommendations and the predicted dates of future bear market time periods all the way thru the year 2098.

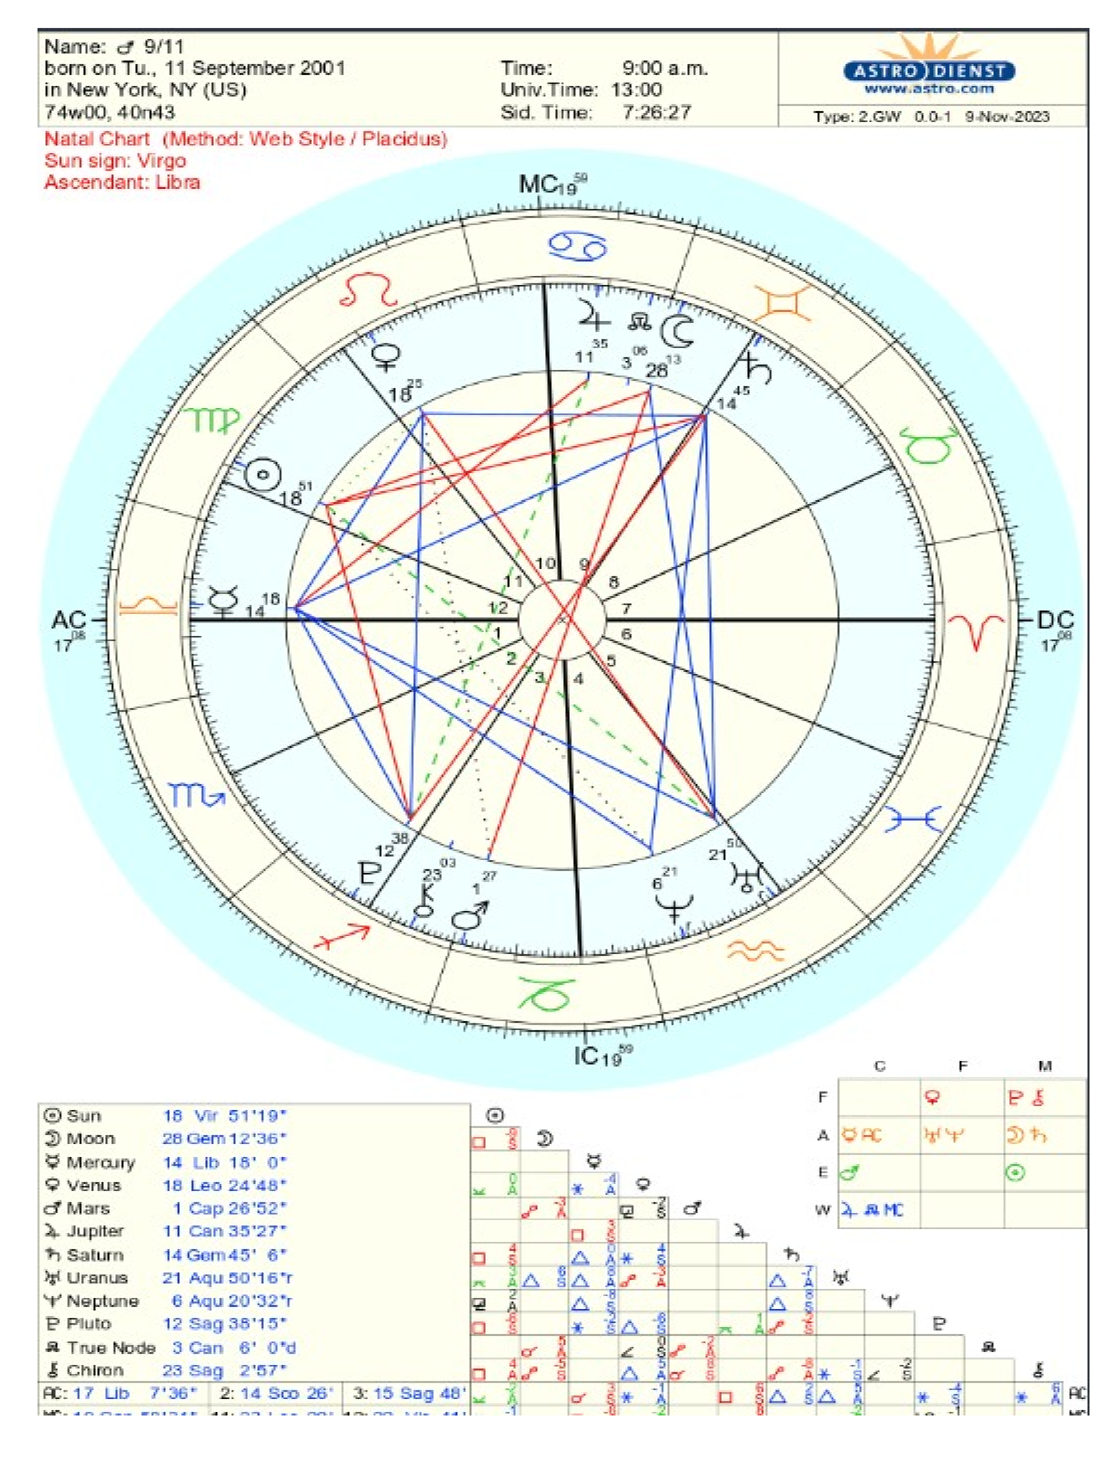

The overall hypothesis is that Mars influences human behavior in a very negative way, not just on investors, but people in general. I have been demonstrating how that same Mars/lunar node alignment also affects military conflict.

Here is the chart for the October 29 stock market crash (notice where Mars is located in relation to the lunar node)

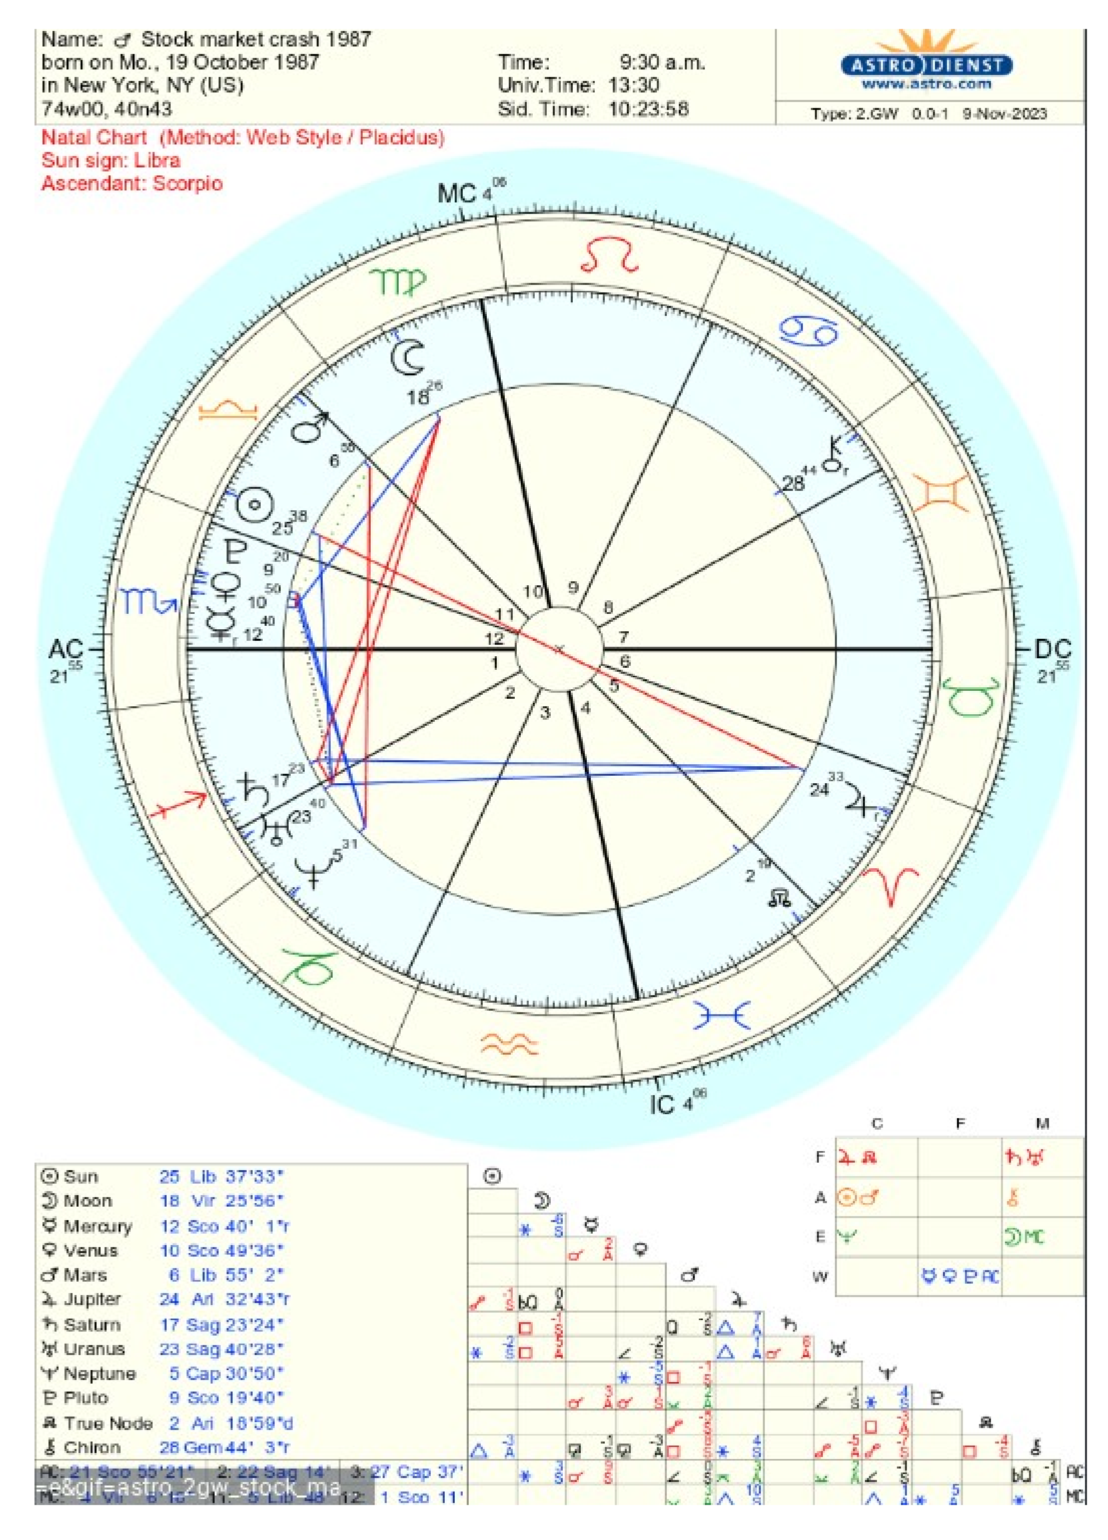

Mars is within 4 degrees of the lunar node in the chart.

Here is the chart for 9/11(notice where Mars is located in relation to the lunar node)

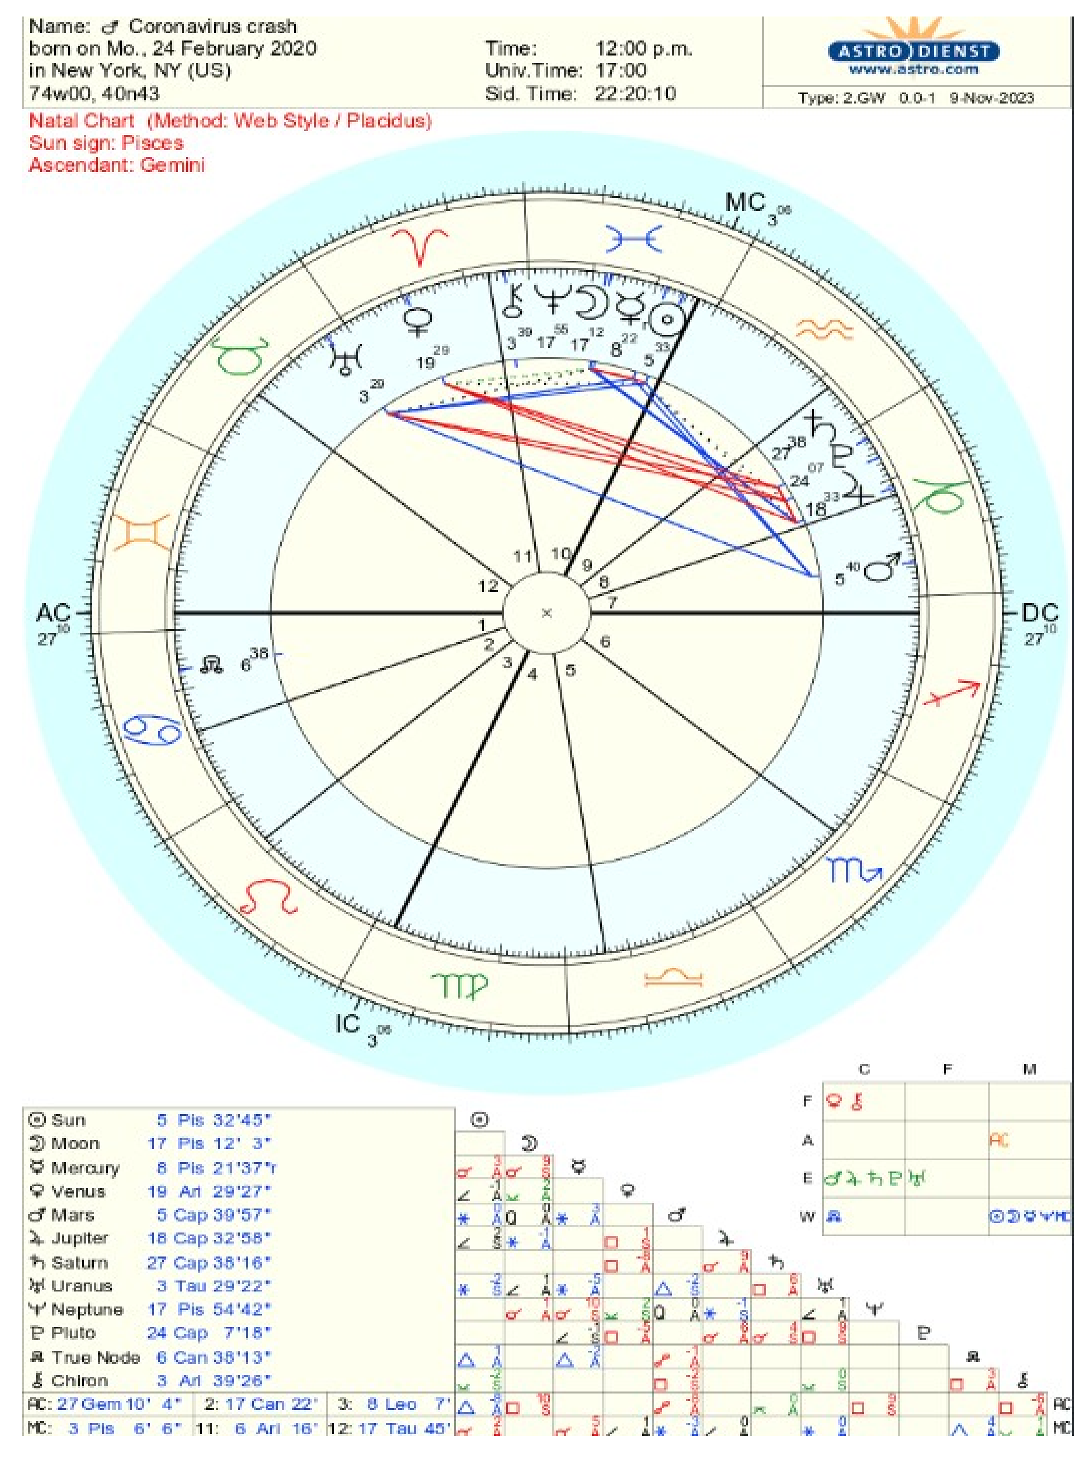

Notice in the chart for the wall stret crash in 1929 and the chart for the 9/11 terrorist atack, how Mars was within just 2 – 4 degrees of the lunar node. Both of these were earth shaking events. Other major stock market crashes such as the 1987 and the 2020 crash had the same alignment.

Here is the chart for the 1987 stock market crash. Notice Mars and the lunar node

Notice how Mars is within 4 degrees of the lunar node, exactly like the October 29th 1929 crash.

Here is the chart for the 2020 Stock market crash

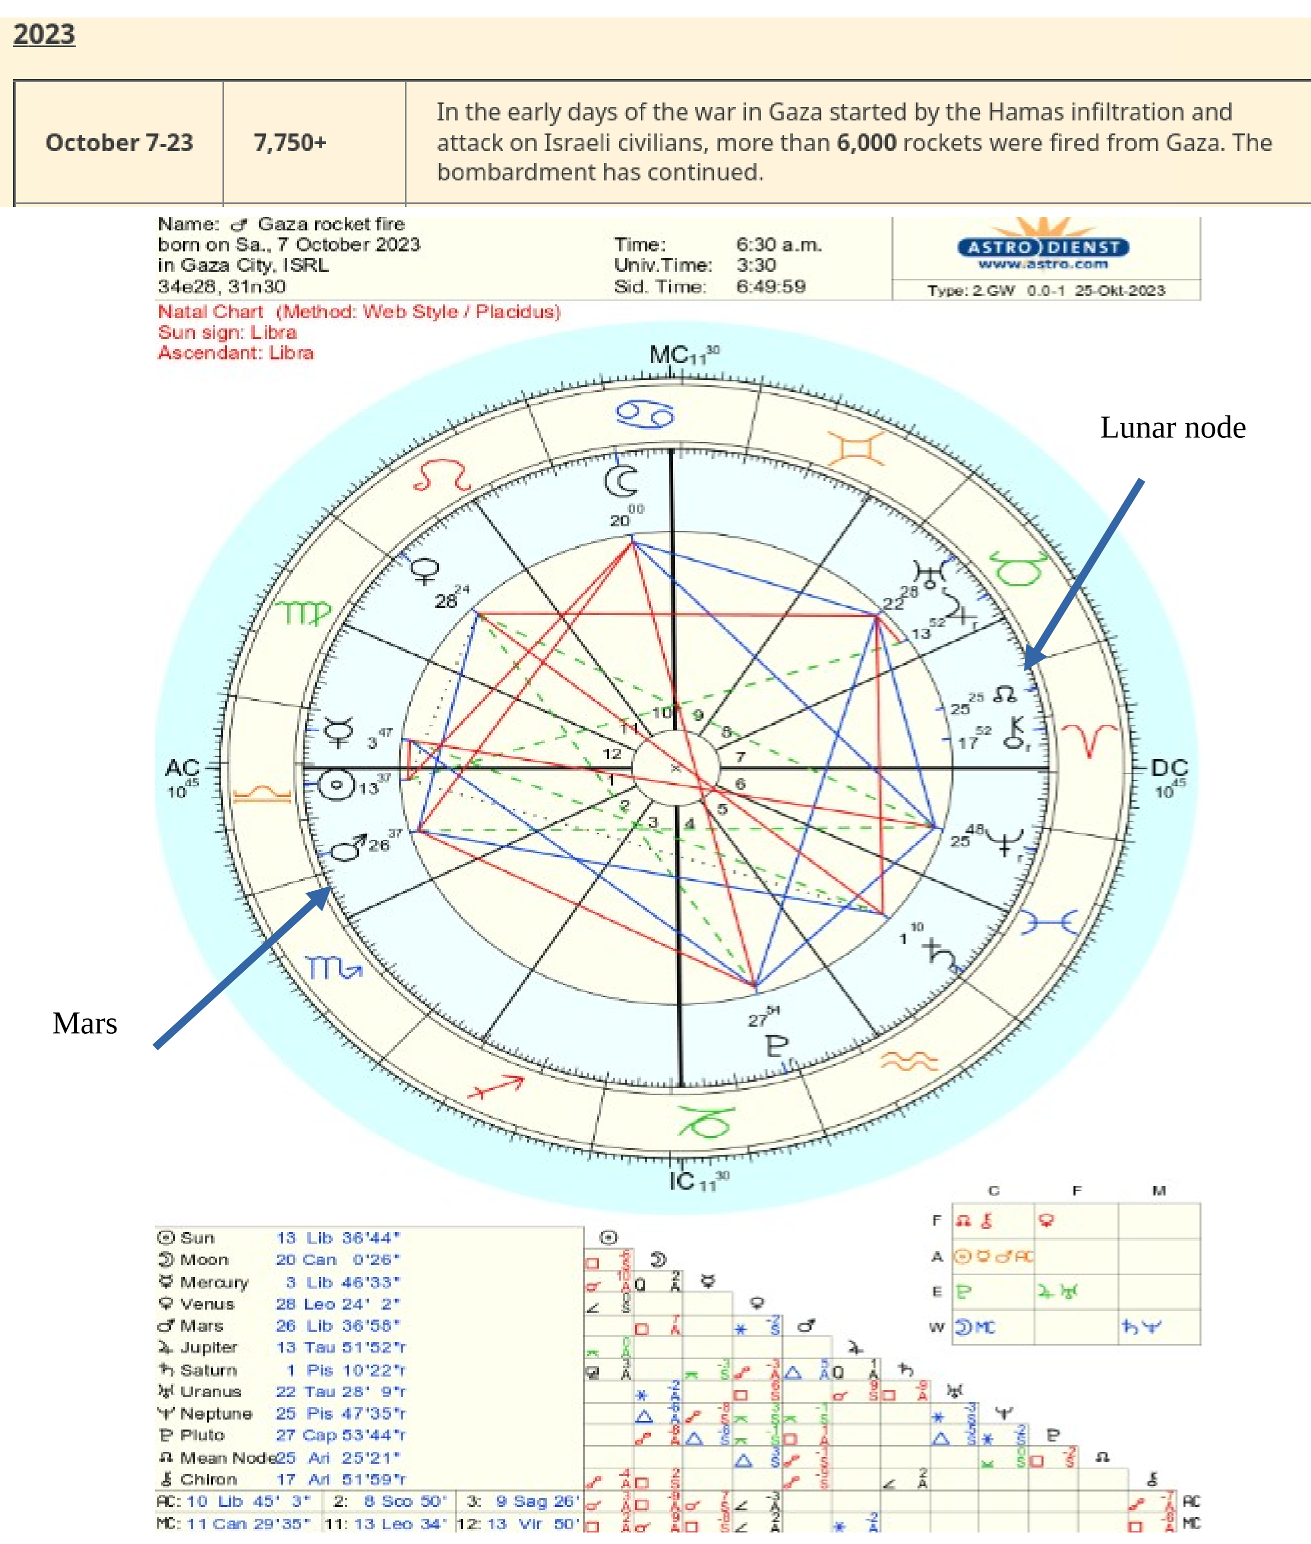

Notice how Mars is within 1 degree of the lunar node. Very close.

Now continue reading this document and see where Mars is in relation to the lunar node during Israel/Palestine rocket fire conflict escalation dates. Notice October 7th 2023

Evidence indicates that the start of escalation of rocket fire from Gaza can possibly be narowed down to the very day. Below are the exact start dates of the major esclation period during a given year. This data is taken from https://www.jewishvirtuallibrary.org/palestinian-rocket-and-mortar-attacks-against-israel

In 2023, Mars was within 30 degrees of the lunar node between August 24th and November 15th. Here is the recent escalation in 2023, which began on October 7th. The astrology chart for October 7, 2023 shows Mars at near the exact same degree of the lunar node. Just 1 degree past the lunar node.

2023

October 7-23	**7,750+**	In the early days of the war in Gaza started by the Hamas infiltration and attack on Israeli civilians, more than **6,000** rockets were fired from Gaza. The bombardment has continued.

In 2022, Mars was within 30 degrees of the lunar node between June 22nd and September 19th. Here is the escalation period in 2022, which began on August 5th, 2022. The astrology chart for August 5th, 2022 shows Mars at near the exact same degree of the lunar node. Just 2 degrees past the lunar node

2022

August 5-8	1,100 Rockets	An estimated **1,100** rockets were launched from Gaza by Islamic Jihad. At least 200 malfunctioned and exploded within the Gaza Strip, and the Iron Dome intercepted 380.

In 2021, Mars was within 30 degrees of the lunar node between February 9th and May 13th. Here is the escalation period in 2021, which began on May 10th 2021. The astrology chart for May 10th, 2021 shows Mars 28 degrees past the lunar node, towards the end of the phase.

2021

May 10-20	4,369 Rockets	More than **4,369** rockets were launched toward Sderot, Ashkelon, Ashdod, Jerusalem and neighboring communities. Ten Israelis were killed. More than 90 percent of projectiles heading toward populated areas were intercepted by Iron Dome. Roughly a third of the rockets landed inside the Gaza Strip. Most of the others landed in open fields.

In 2020, Mars was within 30 degrees of the lunar node between January 15th and April 3rd
Here is the escalation period in 2020, which began on February 23rd, 2020. The astrology chart for February 23rd, 2020 shows Mars within 1 degree of the lunar node

2020

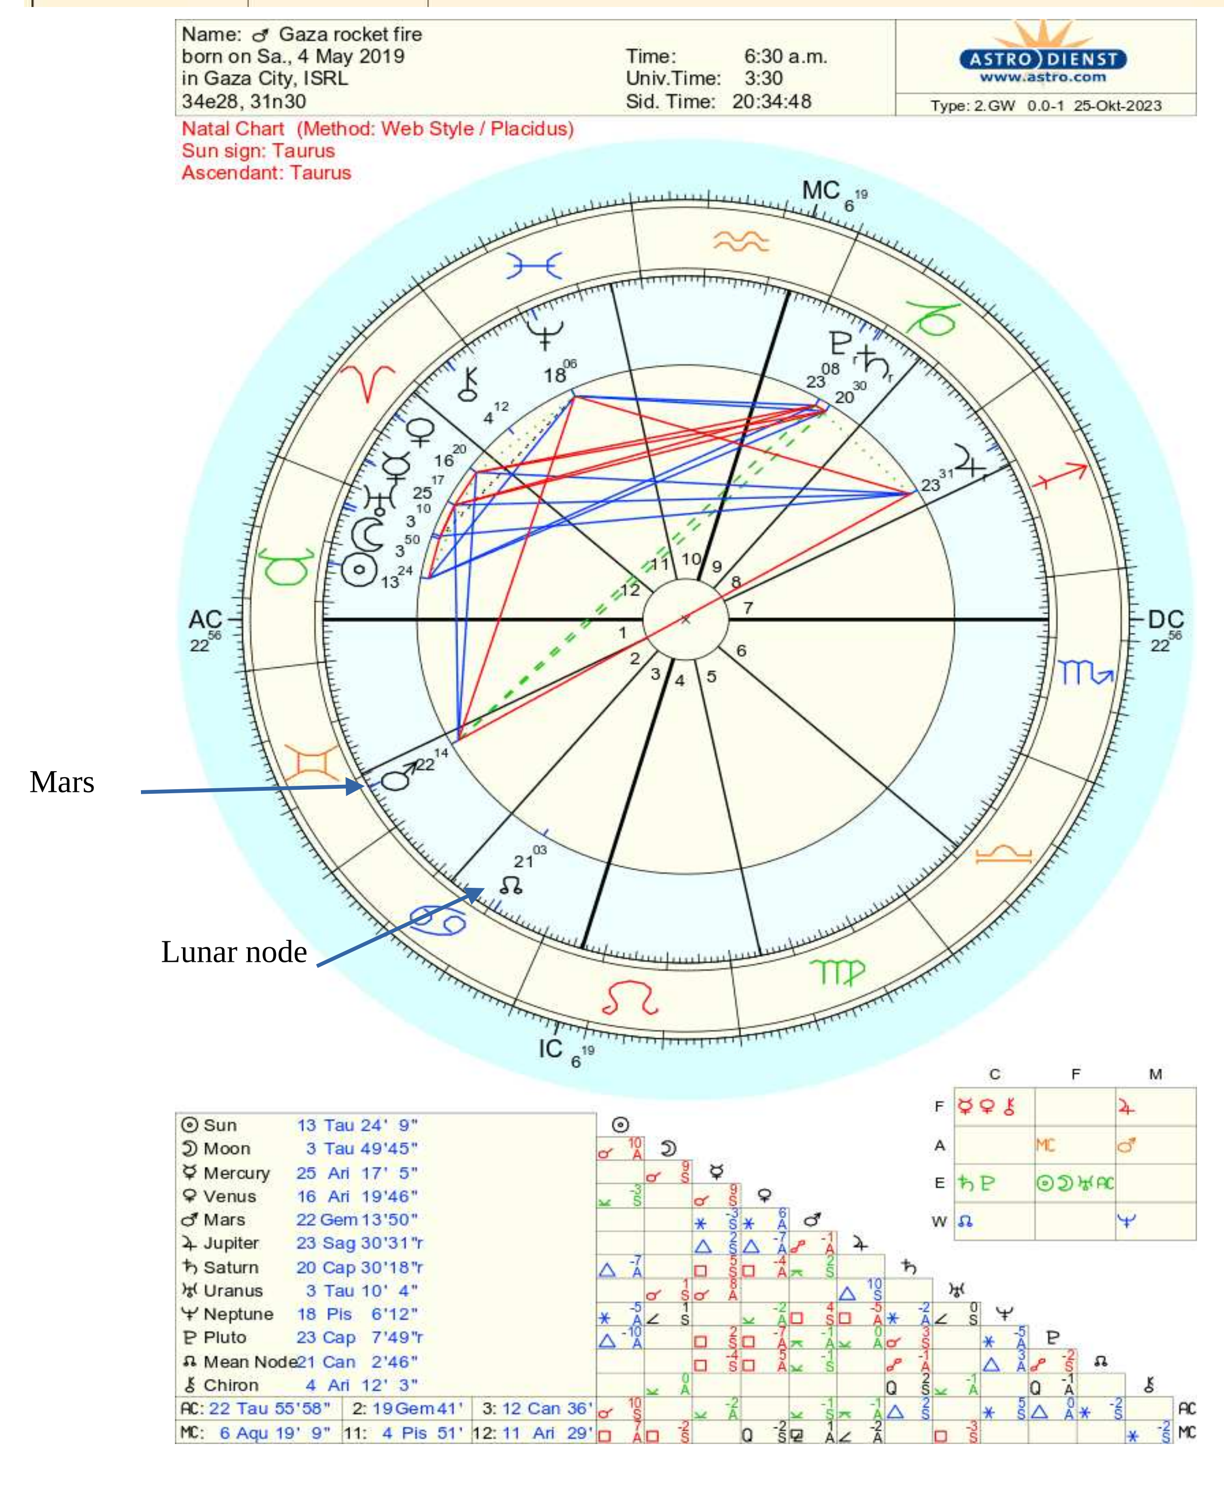

Feb 23-24	90 Rockets	Over the course of Sunday and Monday, some **90 rockets** were fired at Israel from the Gaza Strip — most of them by the Palestinian Islamic Jihad terror group — and approximately 90 percent of those heading toward populated areas were intercepted by the Iron Dome system.

In 2019, Mars was within 30 degrees of the lunar node between May 1st and July 29th. Here is the escalation period in 2019, which began on May 4th, 2019. The astrology chart for May 4th 2019 shows Mars within 30 degrees of the lunar node

2019

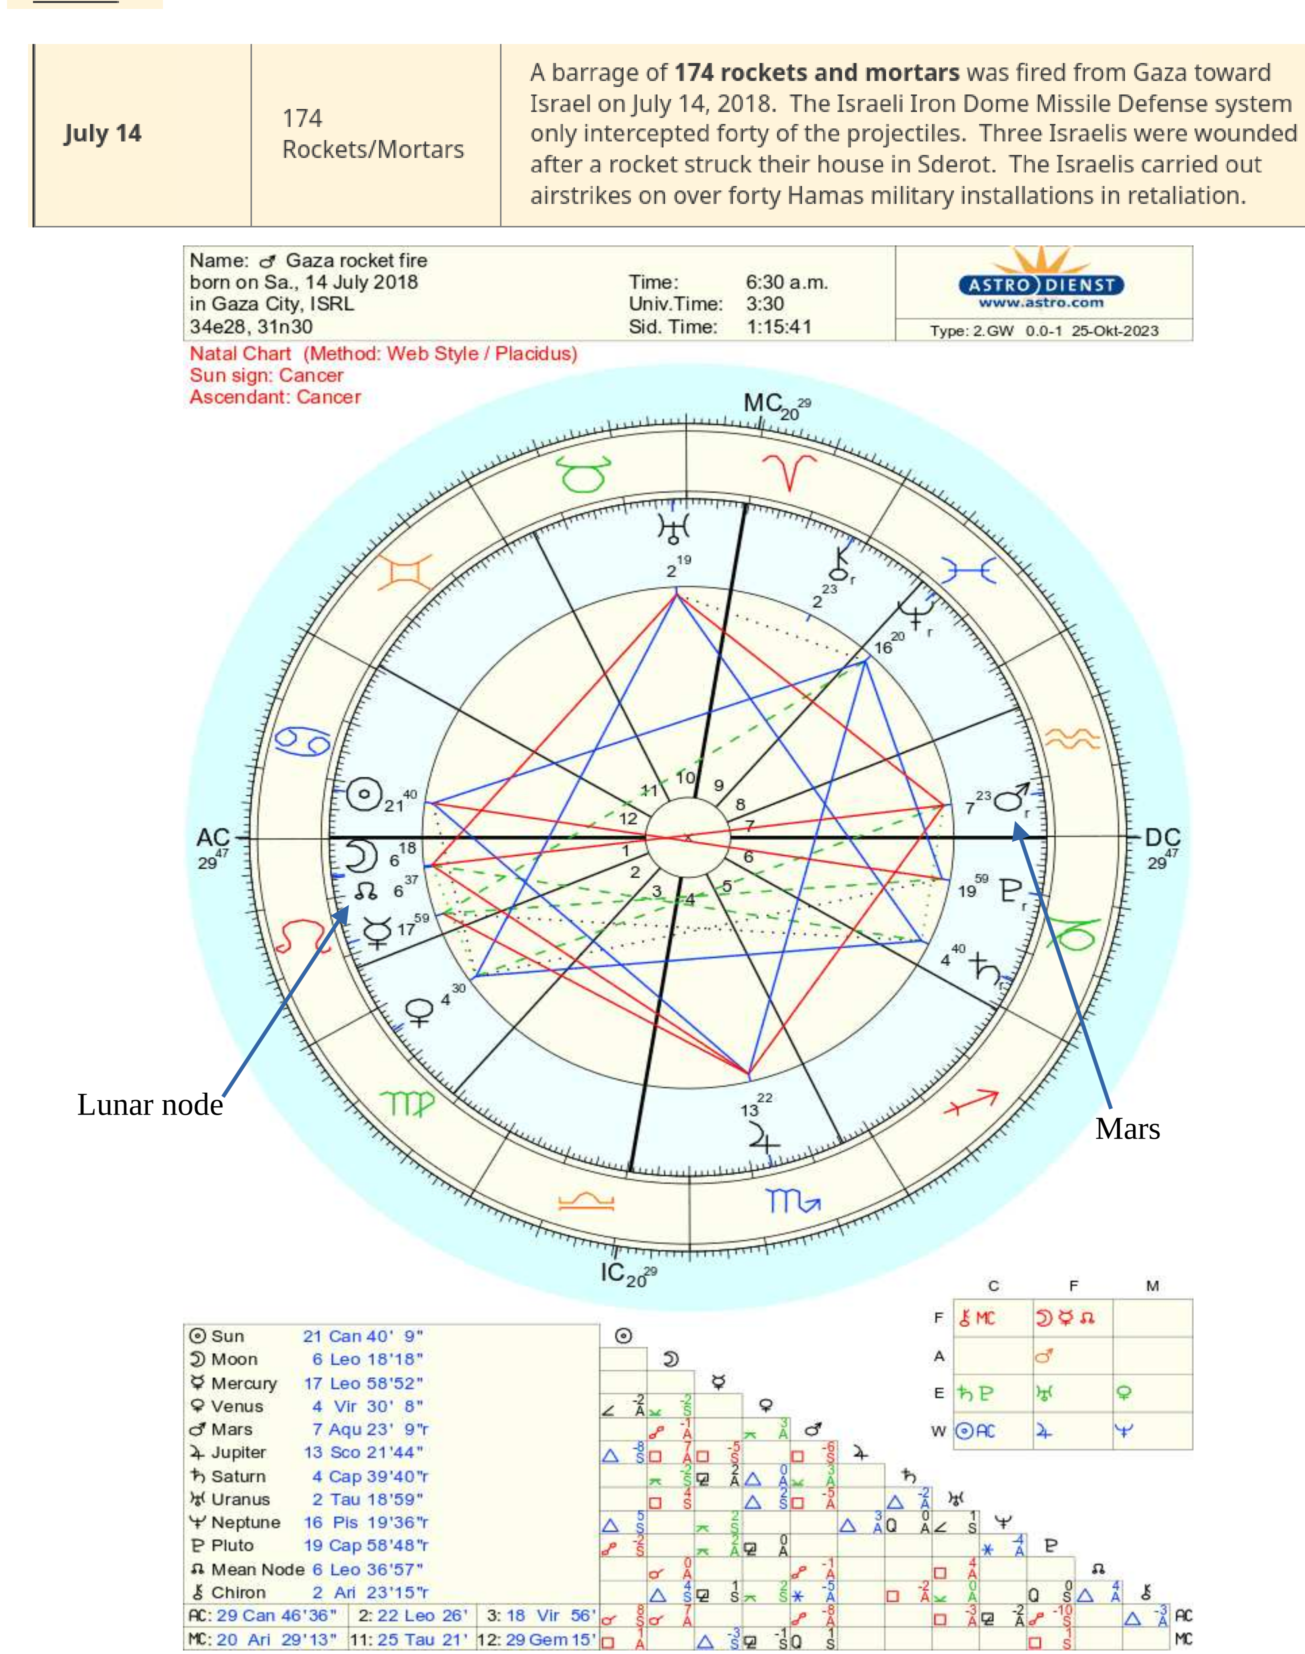

May 5	200 Rockets	A barrage of **200 rockets** was fired at Israel from Gaza. Two people were killed when rockets hit a factory in Ashkelon.
May 4	250 Rockets	A barrage of **250 rockets** was fired at Israel from Gaza, killing an Israeli man in Ashkelon.

In 2018, Mars was within 30 degrees of the lunar node between April 8th and November 14th. Here is the escalation period in 2018, which began on July 14, 2018. The astrology chart for July 14th 2018 shows Mars within 1 degree of the lunar node

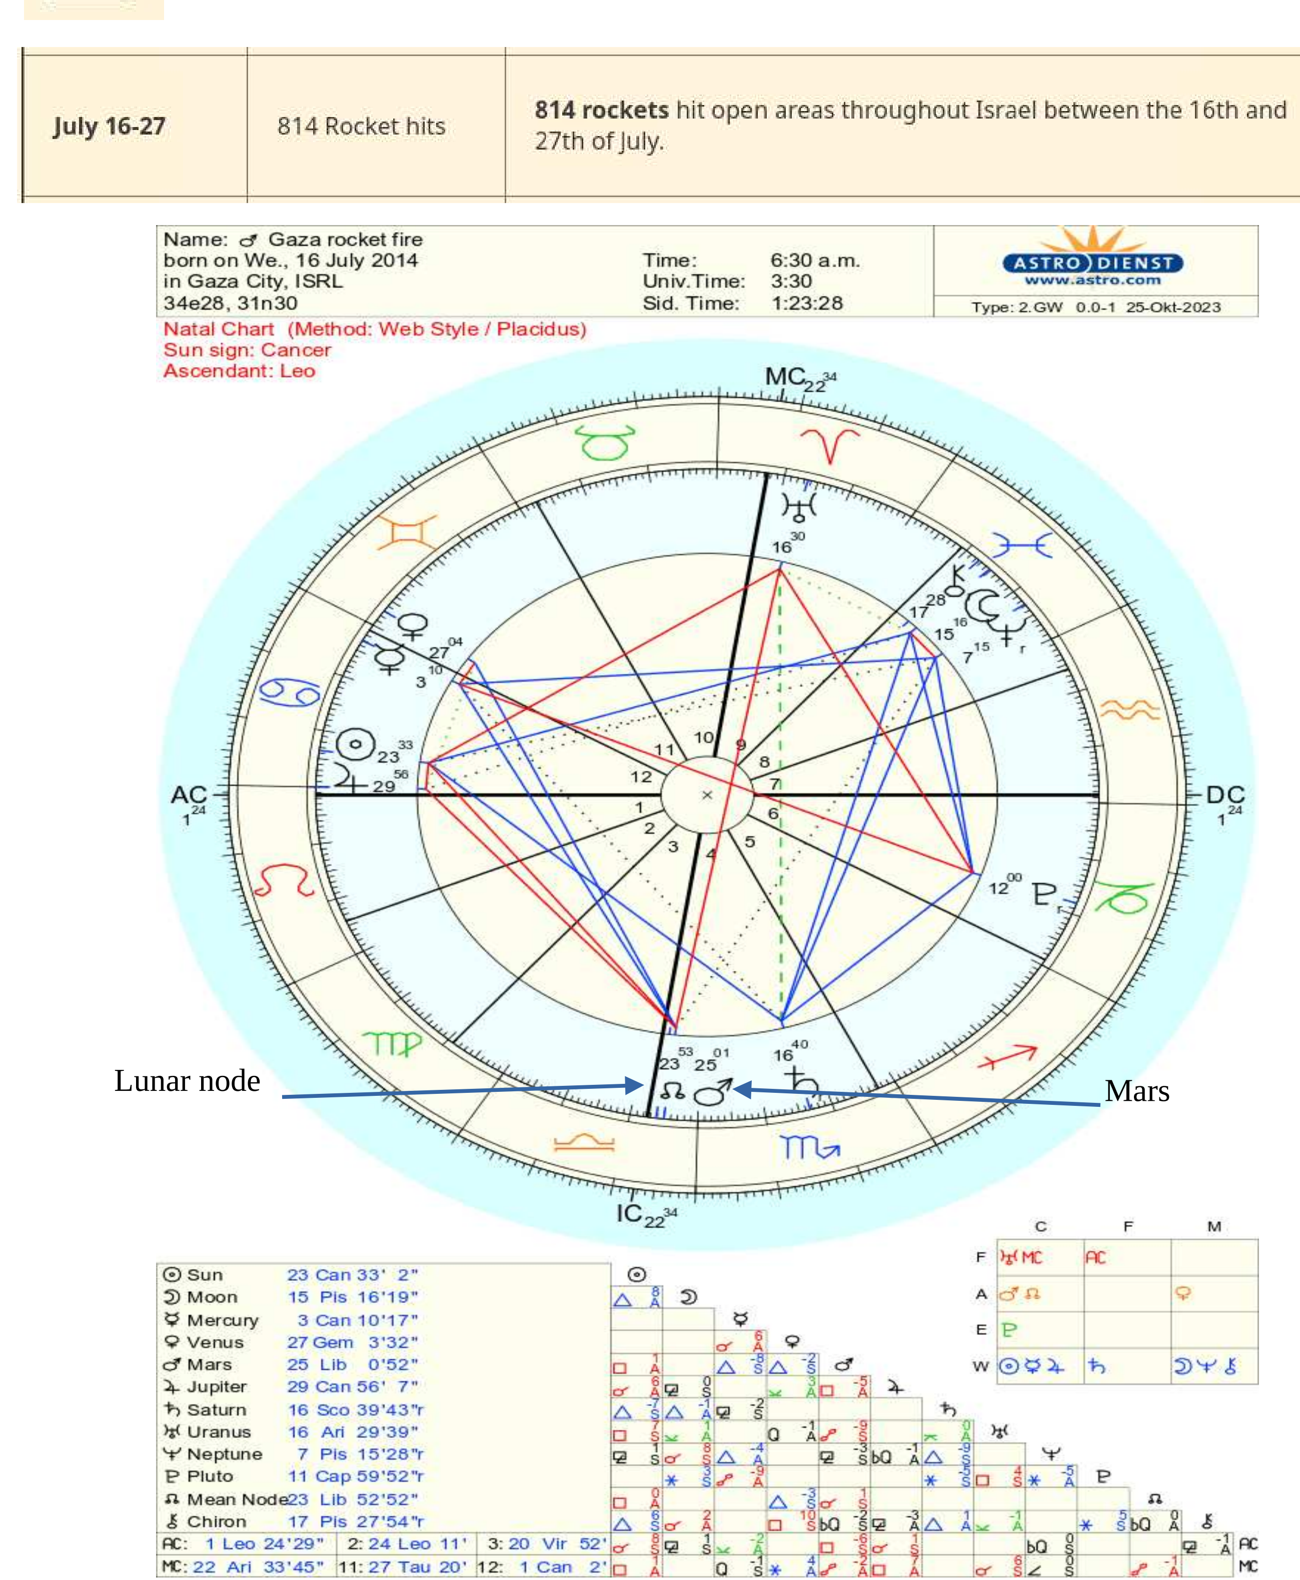

2018

July 14	174 Rockets/Mortars	A barrage of **174 rockets and mortars** was fired from Gaza toward Israel on July 14, 2018. The Israeli Iron Dome Missile Defense system only intercepted forty of the projectiles. Three Israelis were wounded after a rocket struck their house in Sderot. The Israelis carried out airstrikes on over forty Hamas military installations in retaliation.

In 2014, Mars was within 30 degrees of the lunar node between December 19th 2013 and August 28, 2014. Here is the escalation period in 2014, which began on July 16, 2014. The astrology chart for July 16h 2014 shows Mars within 1 degree of the lunar node

2014

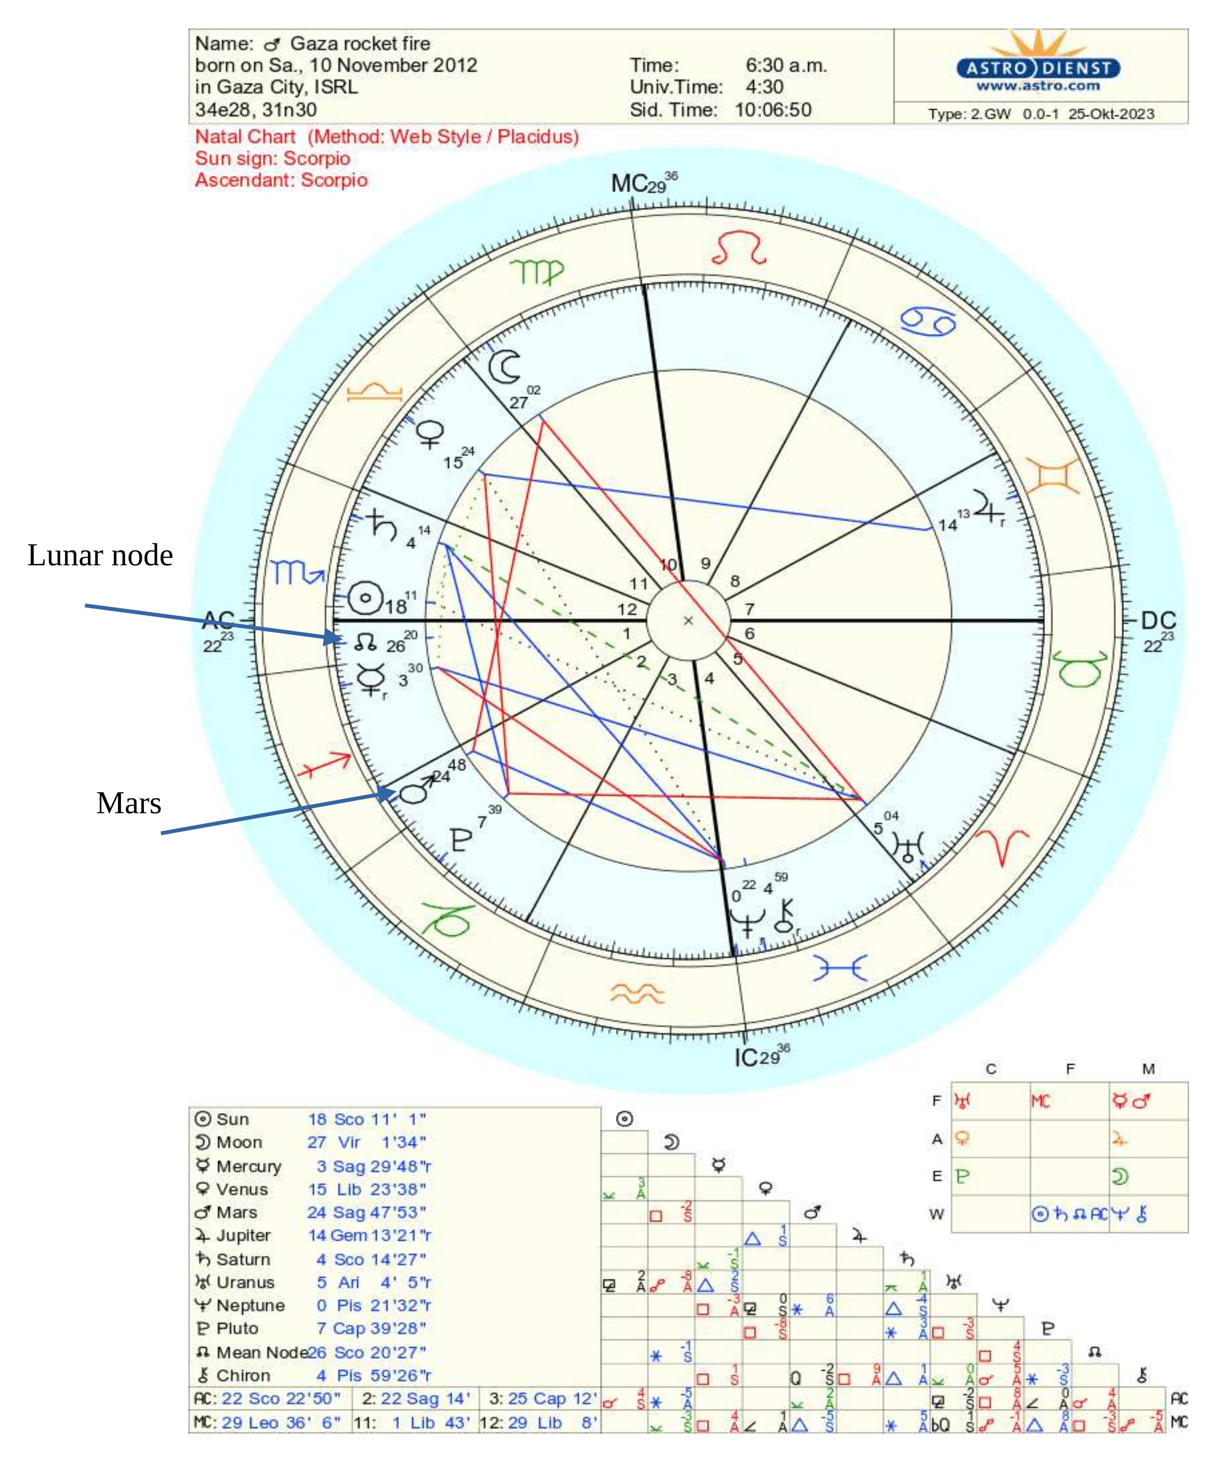

July 16-27	814 Rocket hits	**814 rockets** hit open areas throughout Israel between the 16th and 27th of July.

In 2012, Mars was within 30 degrees of the lunar node between August 24th and November 12th. Here is the escalation period in 2012, which began on November 10, 2012. The astrology chart for November 10, 2012 shows Mars 30 degrees of the lunar node near the end of the phase

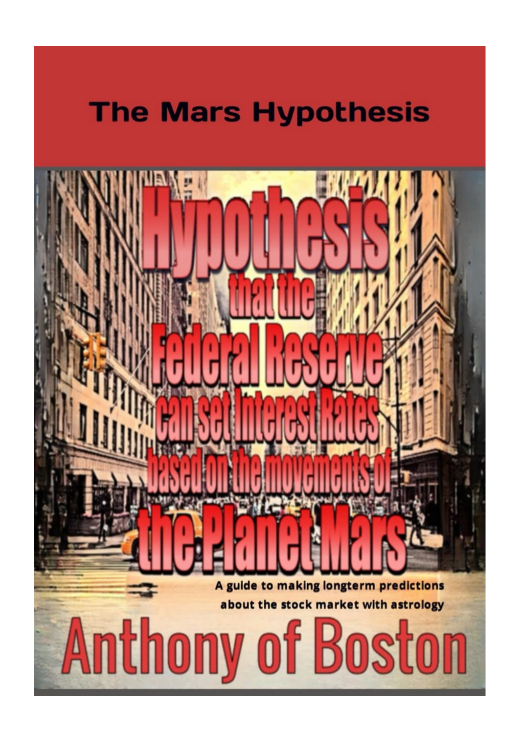

2012

November 14-21	933 rockets	**Operation Pillar of Defense**: On the morning of November 15, **three Israeli civilians were killed** when a rocket directly struck their apartment building in the city of Kiryat Malachi. **Three children, among them two young babies, were also wounded** in the strike. **Three IDF soldiers were wounded** in a separate attack when mortar shells exploded inside their base near the Gaza border. On November 16, a rocket fired from Gaza landed outside Jerusalem. On November 20, an **IDF soldier-Cpl. Yosef Fartuk-and a civilian-Alayaan Salem al-Nabari -were killed** when a mortar fired from Gaza exploded in the Eshkol regional council. **Five IDF soldiers were wounded** when a rocket landed inside their holding area on the Gaza border. Also on November 20, a GRAD rocket scored a direct hit on a residential apartment building in the city of Rishon L'Tzion, **wounding one person moderately and sending nearly ten others to the hospital with shock.** **In total, terrorists in Gaza fired more than 1,500 rockets at Israel during this period-933 struck inside Israel, 421 were intercepted by the Iron Dome Missile Shield, and 152 rockets landed inside the Gaza Strip.**
November 10-13	One hundred twenty-one (121) rocket hits	In distinct escalation, Palestinian terrorists in Gaza launched more than 150 rockets at Israel; at least 121 rocket hits were identified in Israeli territory. A total of 64 rockets hits were identified on November 11. A number of mortar shells were also fired. A number of Israeli civilians were wounded by the rocket fire, although not seriously; several were treated for shock and there was extensive property damage.

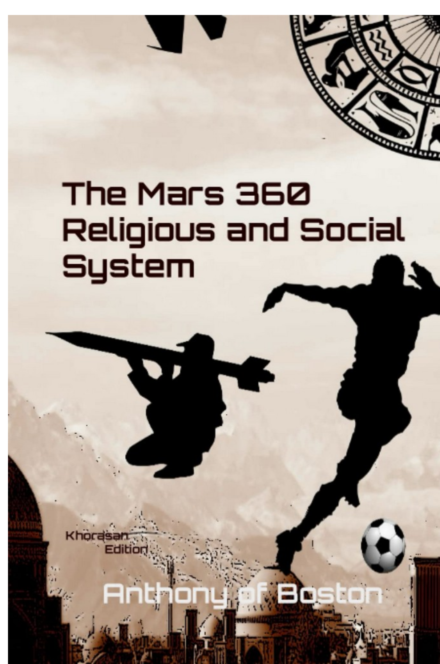

The key extrapolation we can take away from the most significant escalation periods over the past 10 years in Israel is that Gaza militants tend to launch attacks either at the exact beginning, the exact middle, or the exact end of the Mars-within-30-degrees-of-the-lunar-node phase. In these examples, the highest escalation of rocket fire for the years 2014, 2018, 2020, 2022, and 2023 all commenced when Mars was in the exact middle of the Mars-within-30-degrees-of-the-lunar-node phase, give or take 1 or 2 degrees. In the years 2012 and 2021, the highest escalation for the year commenced at the very end of the Mars-within-30-degrees-of-the-lunar-node phase, give or take 1 or 2 degrees. In 2019, the highest escalation for the year commenced at the very beginning of the Mars-within-30-degrees-of-the-lunar-node phase.

These three books can further induce faith in Mars influence and thus confer value to the Mars Redback currency system

After justifying faith in the influence of Mars, now we can apprehend the value of the Mars Redback currency system

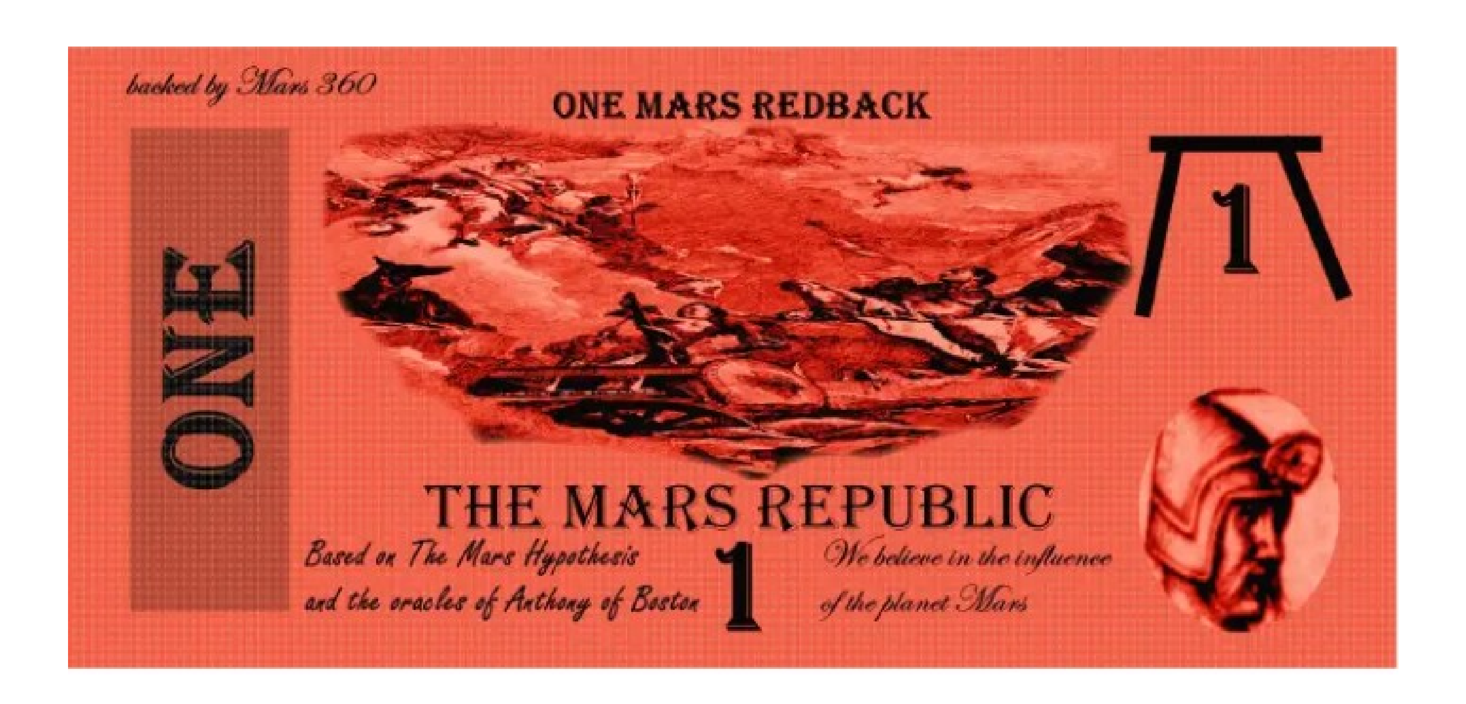

The Mars 360 social/financial theory takes aspects related to an individual's astrological Mars placement—according to how it is explained in "The Mars 360 Religious and Social System", and has it displayed within a social environment, and combines that with the aspect of buying and selling within that framework. This means that in order for this currency system to work, a person has to believe that Mars influences human beings. And one does not have to call it faith-based. It can simply be hypothesis-based or theory-based, no different than how quantum theory is fostered in the scientific community. This currency system is similar to how private currencies are issued within local communities to encourage spending and economic development within that community. As a contingency plan in the case of obtuseness toward the impact of inflation, a small community would develop as a scientific study. Within that community, each person would calculate where Mars was at the time they were born according to the framework laid out in the book "The Mars 360 Religious and Social System" which divides the astrology chart into 6 sections. The community would then see to it that the individual's rights under their own Mars influence is not violated....meaning that the characteristics associated with the negative Mars influence (according to where it's positioned in the chart) would be allowed some healthy expression(healthy meaning enough to where humans can still co-exist).

Mars is responsible for negative habits dispersed amongst the 6 possible positions:
1. poor face- to-face communication/interaction
2. hyperactivity/reckless thoughts
3. debauchery
4. hyper-opinionated/cultural bias
5. laziness/disobedience
6. introversion/sillyness.

The reason the idea of an outward display of Mars's position in an individual's birthchart is presented is because it would precipitate "understanding,"allowing people to prepare or know in advance how to deal with the individual and vice versa without having to go through any extended learning phase, which oftentimes gives rise to contention.

The commercial aspect allows for a dynamic that would encourage buying and selling amongst those who carry some outward form of insignia related to Mars's position at the time they were born, or simply has Mars indicated on their driver's license. This doesn't necessitate issuing a private currency, but due to discrimination laws, issuing a private currency within a local community would be a more feasible legal option. The currency is called the Mars Redback and its growth would follow that old Facebook model, which centered around the private community before slowing branching out into the global sphere. The Mars Redback—backed by a working model that supports the belief that the planet Mars influences human nature—could be used within communities of people who have the position of Mars in their birthchart indicated outwardly in some way. In order to gather how interest rates would be managed, one can read the book "The Mars Hypothesis" which hypothesizes that the Federal Reserve could have set interest rates based on the movements of the planet Mars. The book also lays out future dates of when interest rates should be either raised or lowered.

Here is a diagram of the Redback currency: 200 of these private notes can be found in the book "200 Private Mars Redback Notes"
